

## Effective Integration of Educational Technology

### Empowering Health Science Education Teachers

**Lara Climer, EdD, MSN, RN**  
 Health Science Technology Teacher  
 Nursing Academic Readiness Educator  
 Owner, Nursing & Health Science Central

# Objectives

1. Review educational technology integration theories
2. Explore practical strategies for aligning technology with content and pedagogy to create engaging, interactive learning experiences

## Pedagogy

**How you teach - what you do and what you ask students to do**

**Influences curriculum design**

**Driven by learning objectives - what students should be able to know and do**

**Shapes the learning environment and student engagement**

## Bloom's Taxonomy

<b>create</b>	Produce new or original work <i>Design, assemble, construct, conjecture, develop, formulate, author, investigate</i>
<b>evaluate</b>	Justify a stand or decision <i>appraise, argue, defend, judge, select, support, value, critique, weigh</i>
<b>analyze</b>	Draw connections among ideas <i>differentiate, organize, relate, compare, contrast, distinguish, examine, experiment, question, test</i>
<b>apply</b>	Use information in new situations <i>execute, implement, solve, use, demonstrate, interpret, operate, schedule, sketch</i>
<b>understand</b>	Explain ideas or concepts <i>classify, describe, discuss, explain, identify, locate, recognize, report, select, translate</i>
<b>remember</b>	Recall facts and basic concepts <i>define, duplicate, list, memorize, repeat, state</i>

## SAMR Model

<b>Transformation</b>	<b>Redefinition</b> Tech allows for the creation of new tasks, previously inconceivable
	<b>Modification</b> Tech allows for significant task redesign
<b>Enhancement</b>	<b>Augmentation</b> Tech acts as a direct tool substitute, with functional improvement
	<b>Substitution</b> Tech acts as a direct tool substitute, with no functional change
