

Dr. Janice Miller

I am the Health Science Instructor of the Physical Therapy program of study at Blanson Career and Technical Education High School in Aldine ISD. During my 5 years as a teacher, I have taught Principles of Health Science, Medical Terminology, Medical Microbiology, Health Science Theory and Clinical and Practicum in Health Science - Physical Therapy. In 11 years of being a Texas - licensed physical therapist, I have worked in outpatient neurology, acute care, and inpatient rehabilitation. I was a part of the committee for TEA Innovative courses for Physical Therapy I and II. I strive to teach students the basics needed to get their foot in the door as a rehabilitation technician and succeed in post secondary education.

Ms. Alicia Lovatos

I am the Health Science Instructor of the Dental Assisting program of study at Blanson Career and Technical Education High School in Aldine ISD. During my 5 years as a teacher, I have taught Principles of Health Science, Medical Terminology, Medical Microbiology, Health Science Theory and Clinical and Practicum in Health Science - Dental Assisting. In my 17 years in the dental field, working both as a dental assistant and dental hygienist, I have worked in general dentistry, oral surgery, periodontics, prosthodontics, and orthodontics. I have served as a voting delegate and committee member for the greater Houston dental hygienists association. My goal as a health science teacher is to prepare the students with the knowledge and skills that will help them better pursue a career in healthcare.

Mrs. Andrea Crull

I am the Health Science Instructor of the Patient Care Technician program of study at Blanson Career and Technical Education High School in Aldine ISD. During my two years as a teacher, I have taught Medical Terminology, Health Science Theory and Clinical and Practicum in Health Science - Patient Care Technician, Phlebotomy and EKG. In 20+ years of being a Texas - licensed registered nurse (RN) and 10 years of being a Texas - licensed advanced practice nurse, I have primarily worked in pediatric outpatient care. My favorite part of also being a healthcare provider is teaching families health prevention and health maintenance. As an Health Science High School instructor, I strive to teach students the health care basics needed to become certified and join the healthcare industry as phlebotomists, EKG technicians, or Patient Care Technicians. Thus, giving them a strong foothold as they continue their healthcare career goals in post secondary education.
